

**Advanta Flex™**

*For the ultimate  
sleeping experience,  
lay off the latex and  
lay on AdvantaFlex.*

***For uncompromising sleeping comfort,  
there is no foam like it.***

Few foams are firm or durable enough to actually replace the springs in a mattress...but AdvantaFlex™ can. It's as smooth and soft as latex...but also stronger and easier to handle.

The highly sophisticated engineering employed in its manufacturing process allows AdvantaFlex to spring back to its original shape each time your body shifts. This superb resilience means much greater comfort, support and durability, with no discernible sagging even after years of regular use.

***AdvantaFlex...one advantage after another.***

- Superb Comfort and Support
- More Cost Effective
- Luxuriously Soft to the Touch
- High Resilience
- Superior Pressure Relief
- Long Product Life
- Environmentally Friendly
- Hypo-allergenic
- No Offensive Latex Odour

For benefits that range beyond simple comfort and support.

From bedding cores, mattress toppers and pillows to furniture seating, AdvantaFlex provides a choice of two densities – one that is ideal for your particular application. Plus it's easy to convert and work with so you can be more productive and cost-effective, with less downtime in the manufacturing process.

### Specifications

#### AdvantaFlex 300

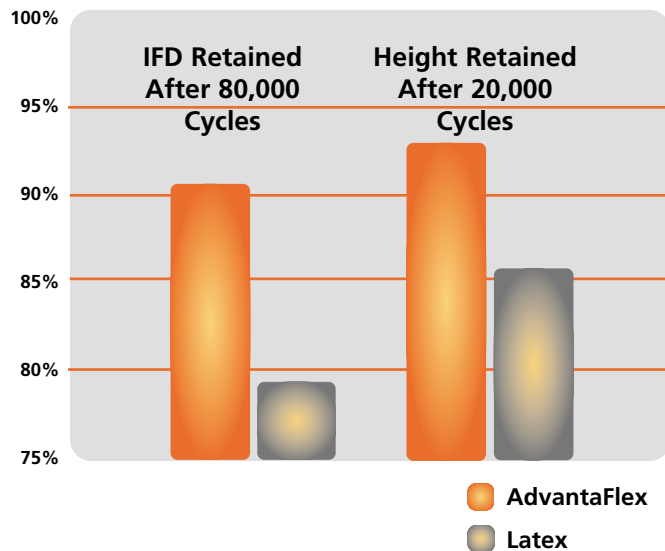

Density 3.0 lbs +/- 0.2  
IFD 25% 15 +/- 2

#### AdvantaFlex 400

Density 4.0 lbs +/- 0.2  
IFD 25% 25 +/- 2

AdvantaFlex meets all Cal 117 requirements.

### AdvantaFlex™ vs. Latex

### Our Advanced CO<sub>2</sub> Process: The Natural Choice

How do you produce foam of the highest quality and consistency without harmful emissions? At Flexible Foam, we helped pioneer the use of carbon dioxide in foam manufacturing. Quite simply, CO<sub>2</sub> is the most highly developed, environmentally friendly foaming process ever created.

#### Why is CO<sub>2</sub> Superior?

The CO<sub>2</sub> process provides a highly consistent product without compromising tear or tensile strength. That results in better support, higher cell integrity and longer life. And your customers will notice the difference because it is softer to the touch.

We're totally committed to the CO<sub>2</sub> process... and have implemented the technology in all of our plants so you can be assured of the same consistency no matter where you order.

### FlexGuard™ Keeps it Fresh

AdvantaFlex is available with FlexGuard™, an anti-microbial treatment that guards against bacterial odors and resists mildew, mold and algae.

### Flexible Thinking Since 1950

Founded over 50 years ago, Flexible Foam Products Inc. is a privately owned, customer-driven company that specializes in manufacturing superior quality foams for use in the most demanding design and industrial applications.

Our Flexible Thinking™ means creating solutions tailored to meet key customer needs. It means having state-of-the-art research and development resources and quality assurance systems to ensure every product meets or exceeds customer expectations. And it means a continuing commitment to offering innovative products and enhancements while maintaining our longstanding reputation for value.
